What is NRHH?

The National Residence Hall Honorary consists of the top 1% of student leaders within residence halls. This organization is built upon four pillars of excellence: Scholastics, Leadership, Service, and Recognition. Our purpose is to advocate professional and leadership development for student leaders, serve our campus and community, and provide recognition of individuals or programs that positively contribute to the residence halls.

BOARD MESSAGE

Greetings, the board would like to give everyone a warm welcome in ushering the new year. We are ecstatic to start developing our student leaders, continue to have a positive affect in the residence halls, and serve both the campus and community. Keeping this in mind, this organization will be taking a new approach internally and externally by cranking things up a notch. Furthermore, we have an executive board goal to not only develop our members' leadership and professional styles and outlooks, but to also emphasize accountability within the organization. Also, we are cultivating initiatives to have a greater presence in the residence hall. Once again, we look forward to seeing everyone and continuing to grow with each other.
